

6 Ways PreApps™ Can Benefit You

1

Pre-Release Buzz

Entice users, increase public awareness, and build word of mouth to share and promote your app.

2

Beta Testing

Connect with your users and discover bugs, crashes, confusing app flows, and typographical errors before release.

3

User Downloads

Increase sales and app ranking instantaneously with opted in user downloads day of release.

4

Tips & Tricks

Learn helpful tips to app design, programming, marketing, submitting to the apps store, and much more.

5

Brand Recognition

Build a mental connection with your app and its users, as users are more inclined to download your app if they're already familiar with it.

6

Polls & Surveys

Receive critical user feedback from your potential customers such as app price, design, and layout.
