eEmpACT On Demand Staffing Software to Revolutionize the Way Commercial High-volume Staffing Firms Do Business

A highly anticipated, 100% web-based staffing software solution will soon allow firms to operate more quickly, efficiently and cost-effectively

MINNEAPOLIS, MN – Oct 15, 2009 – www.eempact.com - The next generation of staffing software is almost here. eEmpACT Software, a Bond International Software Company, will release eEmpACT On Demand, web-based staffing software for commercial, high-volume staffing firms, in coming months. Leveraging leading-edge Cloud Computing technology, eEmpACT On Demand will allow users to access the system from any Web-enabled computer, virtually anywhere. This out-of-the-box solution will allow firms to operate more quickly, efficiently and cost-effectively.

"In today's fast-paced business environment, commercial high-volume staffing firms must operate and respond not just swiftly, but accurately. eEmpACT On Demand staffing software will provide these firms, including traditional and light industrial, with the power to run their business from anywhere they have access to the Internet," says Tim Giehll, CEO of eEmpACT.

eEmpACT On Demand will be able to accurately and efficiently handle the front office, as well as the payroll and billing/accounting needs for a variety of staffing service companies using scalable and affordable web architecture.

With eEmpACT On Demand staffing software, firms will be able to:
- **Increase sales** by making sales reps more productive, ensuring consistent follow-up and finding hidden opportunities
- **Improve client services** by lowering recruiting costs, filling job orders faster and better utilizing candidate databases
- **Improve management** by standardizing sales & service, holding people more accountable and managing cash more intelligently
- **Increase profits** by eliminating inefficiencies, maximizing the output of sales and recruiters, and eliminating double entry and patched-together systems

"eEmpACT On Demand is poised to revolutionize the way commercial high-volume staffing firms do business. Better management, client services, profits and sales all start with eEmpACT On Demand," Giehll says.

About eEmpACT Software

Since 1990, eEmpACT has designed software for temporary staffing firms, direct hire recruiting companies, consulting firms and corporate human resource departments to improve their productivity and deliver a higher level of service to their candidates, customers and employees. With nearly 1,000 customers and more than 40 employees, the company has offices in Minneapolis, Atlanta and San Francisco. Developed specifically for the staffing industry, eEmpACT software combines a complete order/assignment placement and resume retrieval system with powerful accounting and customer relationship management (CRM) technology. Featuring both front- and back-office components, it provides a total and seamless recruitment, assignment, payroll and invoicing software solution that is smart, flexible and easy to use.
