ABOUT HAPPY TAX

Shaking up the \$19 billion tax preparation industry, Happy Tax's disruptive model was born out of frustration with unreliable, under-qualified tax preparers with no licensing or certification and as little as five days of tax training. Happy Tax is designed to bridge the gap between the high quality, pampering, and convenient customer service that consumers want and accurate, reliable, and professional tax returns prepared by CPAs with a minimum of five years of training and experience. Happy Tax offers franchises, independent contractor relationships and Area Representative deals to those wanting to earn additional income and build their own business. Utilizing its patent-pending technology and processes, Happy Tax partners can operate with low overhead and increased flexibility.
