

SAFTEY COLLARS FOR K9s

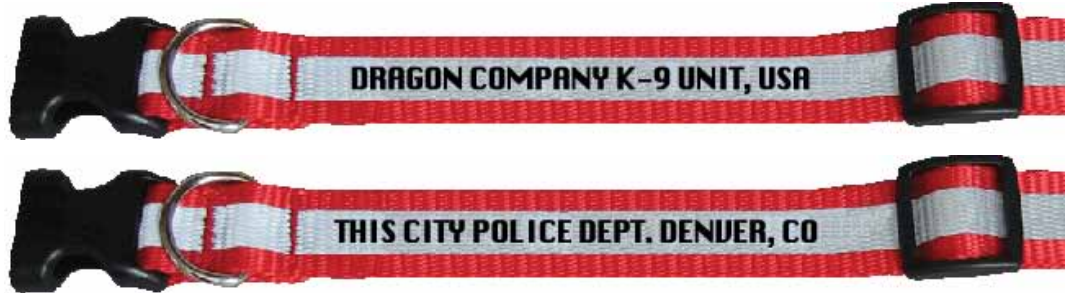

Brevard County Sheriffs Office
Special K9 Unit Just Purchased 20
GPS Units For the Police Force K9
Unit. Why?

"Safety," said the officer, "Our dogs are highly trained members of our team. They are highly valued and very expensive. We want to protect our Dogs and have the ability to know where they are at all times. The 'Love My Pets GPS' GPS Dog Collars were compared to many others and found to be superior in every way. They also were able to customize them for our unit."

Why the Love My Pets GPS safety system is superior

- **Extended Battery Life:** The GPS unit uses rechargeable batteries lasting an industry leading 21 days in on-demand mode between recharges with the provided charger.
- **Custom Made Collars:** Only pet GPS device with custom-made collars on the market.

- **Tested Straps:** Collar safety straps were tested for three years; they do not break or lose the GPS transmitter.

- **Superior Tracking:** An advanced GPS unit enables the locating or tracking of your lost pet in seconds using GPS technology and cellular signals using your own computer. You Can Find Your Pet Even Inside Your Own Home! Full One year Warranty on GPS!

- **GEO sensing:** Extremely easy to set up.
- **Special discounts** for all law enforcement agencies.

- **Collars can be customized.**

- **Comfort:** The LovemypetsGPS reflective pet collar was designed with your pets comfort in mind weighing only 2.65 ounces featuring polyester webbing to maintain consistent fit and acetyl hardware keeping the product light and strong with welded D-ring adding strength to the leash clip.

- **Reflective Collar:** All of the Love My Pets GPS safety products are made with the highest quality materials. The Dog GPS unit is the only device on the market that INCLUDES a one-of-a-kind glow in the dark/reflective dog collar. The Glow material is bonded to polyester and requires no charging or batteries and glows for 12 plus hours!
