

AVAILABLE

0.5 oz - Retail (HPUC01), 2 oz - Professional (BBUC2),
0.5 oz set with 0.5 Soothing Repair Redness Relief Serum (HPSRUC)
pH: 5.5

Uplift, smooth and improve the accelerated signs of aging along the entire eye area including the upper eye lid. This soothing eye gel visibly and gently lifts, tightens and smoothes crepiness, fine lines and wrinkles while reducing puffiness. Peptides, Glutathione and a triple Hyaluronic Acid complex targets aging on three levels by acting as a topical filler, promoting elasticity and deeply restoring healthy hydration.

Skin Type Indications	Directions	Benefits	Application
All skin types Sensitive skin Aging skin Crepiness	Gently pat sparingly on clean skin directly to the eye lid working up to the eye brow bone. Apply along crow's feet and lower contours of the eye. Allow to absorb for a few moments and follow with an eye cream if necessary.	<ul style="list-style-type: none"> Visibly lifts and tightens Smoothes crepiness Reduces puffiness Restores hydration Reduces moisture loss 	Morning, Evening

Key Ingredient	Function
Dermapep™ A350 (Myristoyl Tripeptide-31)	A multifunctional peptide that has been shown to visibly reduce wrinkle area up to 35% in 85% of volunteers after 12 weeks, increase luminosity in 80% of volunteers while demonstrating an anti-inflammatory effect.
Eyeseryl® (Acetyl Tetrapeptide-5)	An anti-bag and anti-glycation tetrapeptide that increases drainage and decongestion of the under eye area while enhancing elasticity and skin smoothness. After 28 days, eye bags were reduced in 70% of volunteers and skin elasticity increased by 30% in 30 days.
Argantensyl™ (Argania Spinosa Kernel Extract)	Natural skin tightening protein extracted from the Morocco Argan tree that displays an immediate tightening effect to visibly reduce fine lines and crow's feet after 1 hour of application. After 4 weeks, existing wrinkles are visibly smoother.
NanoWhite (Arbutin, Glutathione and Vitamin C in Liposomal form)	A liposomal preparation that combines powerful skin brightening ingredients and antioxidants. Natural Arbutin from bearberry leaves strongly inhibits tyrosinase activity reinforced by glutathione, a tripeptide, and vitamin C with strong antioxidant activity. Nanowhite was shown to inhibit melanin production by up to 74% and can regulate both tyrosinase activity and tyrosinase activation.
Hyacare® Filler CL (High molecular weight Sodium Hyaluronate Crosspolymer)	Cross-linked hyaluronic acid that acts as a topical dermal filler with superior water-binding and super-absorbing properties that leads to superior moisturization and imparts long-term protection from dryness. Two hours after application, the visible number and depth of wrinkles was reduced up to 12%.
Hyacare® (Medium molecular weight Sodium Hyaluronate)	An effective humectant that increases water binding within the skin thereby increasing smoothness while softening and decreasing the appearance of wrinkles. Transepidermal water loss was reduced up to 20% after a single application and skin's moisture balance was increased by 20%. After 8 weeks, skin elasticity increased by 27% and skin roughness decreased by 10%.
Hyacare® 50 (Low molecular weight Hydrolyzed Hyaluronic Acid)	A small hyaluronic acid molecule with the ability to penetrate the skin and restores elasticity by 36% after 8 weeks and visibly reduce deep wrinkles.
Bisabolol	An anti-irritant extracted from chamomile.
Honey	A multifunctional wound-healing, anti-inflammatory and antioxidant ingredient rich in amino acids, peptides and vitamins.
Camellia Oleifera (Green Tea) Leaf Extract	A multifunctional extract rich in polyphenols that possesses anti-inflammatory, anticarcinogenic and antioxidant properties shown to prevent collagen breakdown and UV damage to skin.
Vitis Vinifera (Grape) Seed Extract	An antioxidant extract rich in proanthocyanidins, polyphenols, flavonoids and anthocyanins that help diminish the sun's damaging effects, reduce free radical damage and improve wound healing.
Oenothera Biennis (Evening Primrose) Oil	An anti-inflammatory emollient.
Calendula Officinalis (Marigold) Flower Extract	An antibacterial, anti-inflammatory and antioxidant extract.

Ingredients: Water, Glycerin, Argania Spinosa Kernel Extract, Caprylic/Capric Triglyceride, Propanediol, Honey, Myristoyl Tripeptide-31, Sodium Cocoyl Glutamate, Sodium Lactate, Dimethicone, Acetyl Tetrapeptide-5, Cetearyl Alcohol, Leuconostoc/Radish Root Ferment Filtrate, PPG-2 Myristoyl Ether Propionate, Xanthan Gum, Camellia Oleifera Leaf Extract, Citrus Grandis (Grapefruit) Fruit Extract, Ethylhexyl Stearate, Oenothera Biennis (Evening Primrose) Oil, Polysorbate 60, Vitis Vinifera (Grape) Seed Extract, Caprylyl Glycol, Alcohol, Allantoin, Carbomer, Citrus Medica Limonum (Lemon) Peel Oil, Hydrolyzed Hyaluronic Acid, Lecithin, Polyglyceryl-4 Diisostearate/Polyhydroxystearate/Sebacate, Sodium Hyaluronate, Sodium Hyaluronate Crosspolymer, Arbutin, Ascorbyl Palmitate, Bisabolol, Calendula Officinalis (Marigold) Flower Extract, Cetearyl Olivat, Glutathione, Linoleic Acid, Linolenic Acid, Panthenol, Phytic Acid, Sodium Isostearate, Sorbitan Olivat, Tocopheryl Acetate, Ethylhexylglycerin
