Copyright © 2012 flippagemaker.com

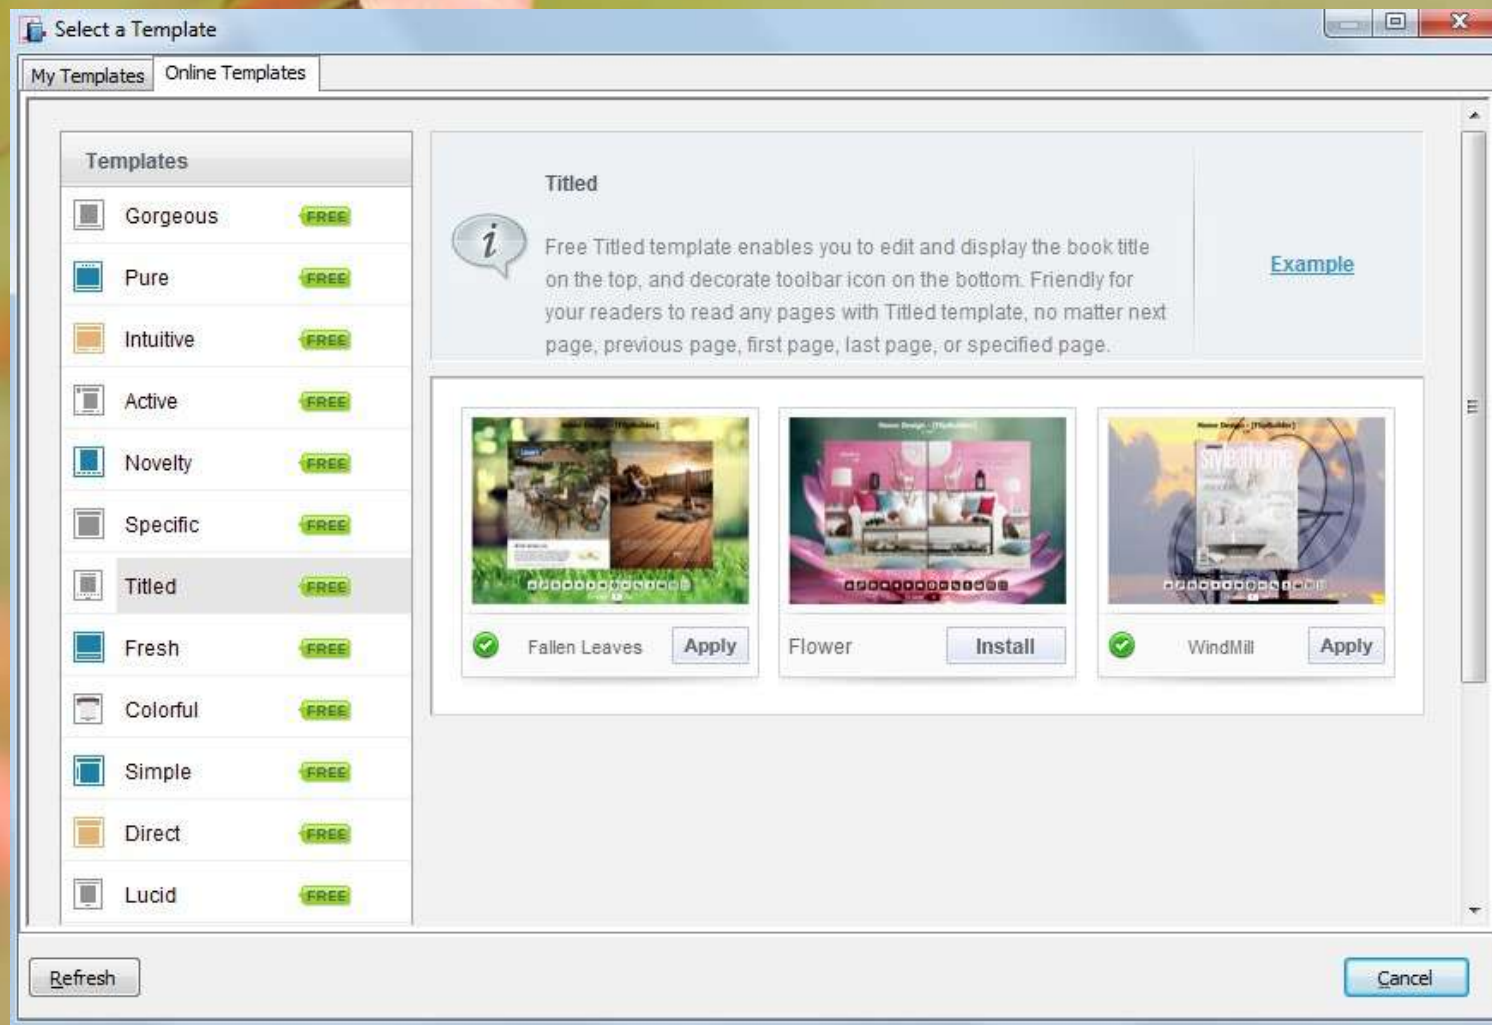

FlipBook Creator is published by FlipPageMaker.com, used to create flash based **flipping book** from **PDF file**.

The screenshot displays the FlipBook Creator software interface. At the top, the FlipPageMaker.com logo and navigation controls (back, forward, search, etc.) are visible. The main area shows a presentation slide titled "Why FlipBook Creator?" with the subtitle "Flipping Industry No.1". The slide features several key points:

- Fashion Appearance:** Represented by an image of a painting on an easel.
- Multiple Platforms:** Represented by icons for Android, Apple, and Windows.
- User-Friendly:** Represented by an image of two hands shaking.

A large, semi-transparent blue graphic is overlaid on the slide, containing the text: "FlipBook Creator makes Reading Interesting". Below this graphic, there is a testimonial: "FlipBook Creator is the best way to create a flipping book and easily create Adobe Flash compatible Flip Books to view on mobile, even burn to CD/DVD through these ways via numerous social media." The interface also includes a "Custom your" button and a "Contact Information" section. On the right side, there is a cartoon illustration of a woman in a white shirt and blue skirt. At the bottom, a "Thumbnail" gallery is visible, showing various slides from the presentation, including "Quick Start of FlipBook Creator" and "Import PDF".

# Dozens of free templates and themes are provided!

Add **audio narration** and apply an **assistant** to tell the story for you
