

For Small Business Contractors

As the latest addition to the PROPRICER™ family of pricing solutions, the Small Business Edition is a robust single-user software version that supplies clients with the pricing power companies need to win more government business.

Applying best practices during all phases of growth

PROPRICER™ Small Business Edition includes many of the robust features and capabilities found in the full Contractor Edition, for companies who must "do more with less". Creating and managing proposals, costs and rates can keep a small team of professionals very busy.

With very little time to waste, PROPRICER™ replaces unstable, non-flexible spreadsheets with an easy-to-use cost proposal tool. Whether your proposal is simple or complex, PROPRICER™ Small Business Edition organizes cost data including labor, materials, and other direct costs and allows users to update and revise offers in minutes. Compliant with FAR and DFAR business systems requirements and equipped with standard FAR reports, the PROPRICER™ Small Business Edition is the system of choice for contractors looking to improve proposal process efficiency in the federal contracting arena.

KEY BENEFITS

- Organize estimates, apply rates/escalations, and perform "what-if" analyses in minutes.
- No data limits, with simple electronic data transfer to primes.
- Standard reports to make output easy for any user, including cost detail and time-phased reports.
- Seamless data interchange with over 200 prime contractors who use PROPRICER™.
- Reduces the need for users to spend countless hours auditing their own proposal templates.
- Data modifications at detail levels can happen in minutes.
- Prepare more proposals in less time, enabling limited resources the opportunity to bid on more new business.
