**Highland Global Business Valuations announces the release of the 4<sup>th</sup> Quarter 2014 Update to “Discount Statistics of Closed-End Funds”**

**Myrtle Beach, South Carolina, Orlando, Florida, Dallas, Texas & Washington, DC, February 13, 2015**—Highland Global Business Valuations is pleased to announce the release of its 4<sup>th</sup> Quarter 2014 Update to its quarterly research on “Discount Statistics of Closed-End Funds.” Highland Global Business Valuations has been conducting its quarterly research on discount statistics of closed-end funds for over ten years.

Each quarter, Barron’s Online ([www.barrons.com](http://www.barrons.com)) reports statistics on publicly-traded closed-end funds. The statistics reported include the discount (or premium) of the market price from the fund’s net asset value (NAV), the 52-week average discount or premium, the fund’s objective, and various return measurements, etc. For the fourth quarter ending December 31, 2014, Barron’s reported that 465 closed-end funds traded at discounted to their NAV. The average discount to NAV was 9.5% with a median of 9.8%. For the fifty-two weeks ending December 31, 2014, 477 closed-end funds traded at discounts to their NAV. The average discount to NAV was 8.8% with a median of 9.0%.

The full update and results of Highland Global’s analysis are available at [www.HighlandGlobal.com](http://www.HighlandGlobal.com). Business appraisers, attorneys, academics, students, or accountants may find Highland Global’s research in this area useful in developing reference points for discounts applicable to minority interests in family limited partnerships or privately held entities that hold a diversified portfolio of financial assets analogous to closed-end funds.
