

For Small Business Contractors

As the latest addition to the ProPricer family of pricing solutions, the Small Business Edition is a robust single-user software version that supplies clients with the pricing power companies need to win more government business.

ProPricer Small Business Edition brings the robust database and algorithm principles to companies who must "do more with less".

Today's small business contractors are looking to offer, market, and respond to federal opportunities through a variety of avenues. Creating and managing proposals, costs, and rates can keep a small team of professionals very busy. With very little time to waste, ProPricer replaces unstable, non-flexible, hard-coded spreadsheets with a simple, easy-to-use, easy-to-learn proposal tool. No matter how easy or complex the proposal, ProPricer Small Business Edition organizes cost data including labor, materials, and other direct elements allowing users to update and revise offers in minutes, rather than hours.

ProPricer - The Industry Standard

For over 25 years contractors have selected ProPricer to meet the demand of federal contracting proposal pricing.

Compliant with FAR and DFAR Business Systems Requirements and equipped with standard FAR reports, ProPricer Small Business Edition is designed to improve performance, maintain accuracy, and improve pricing with every bid.

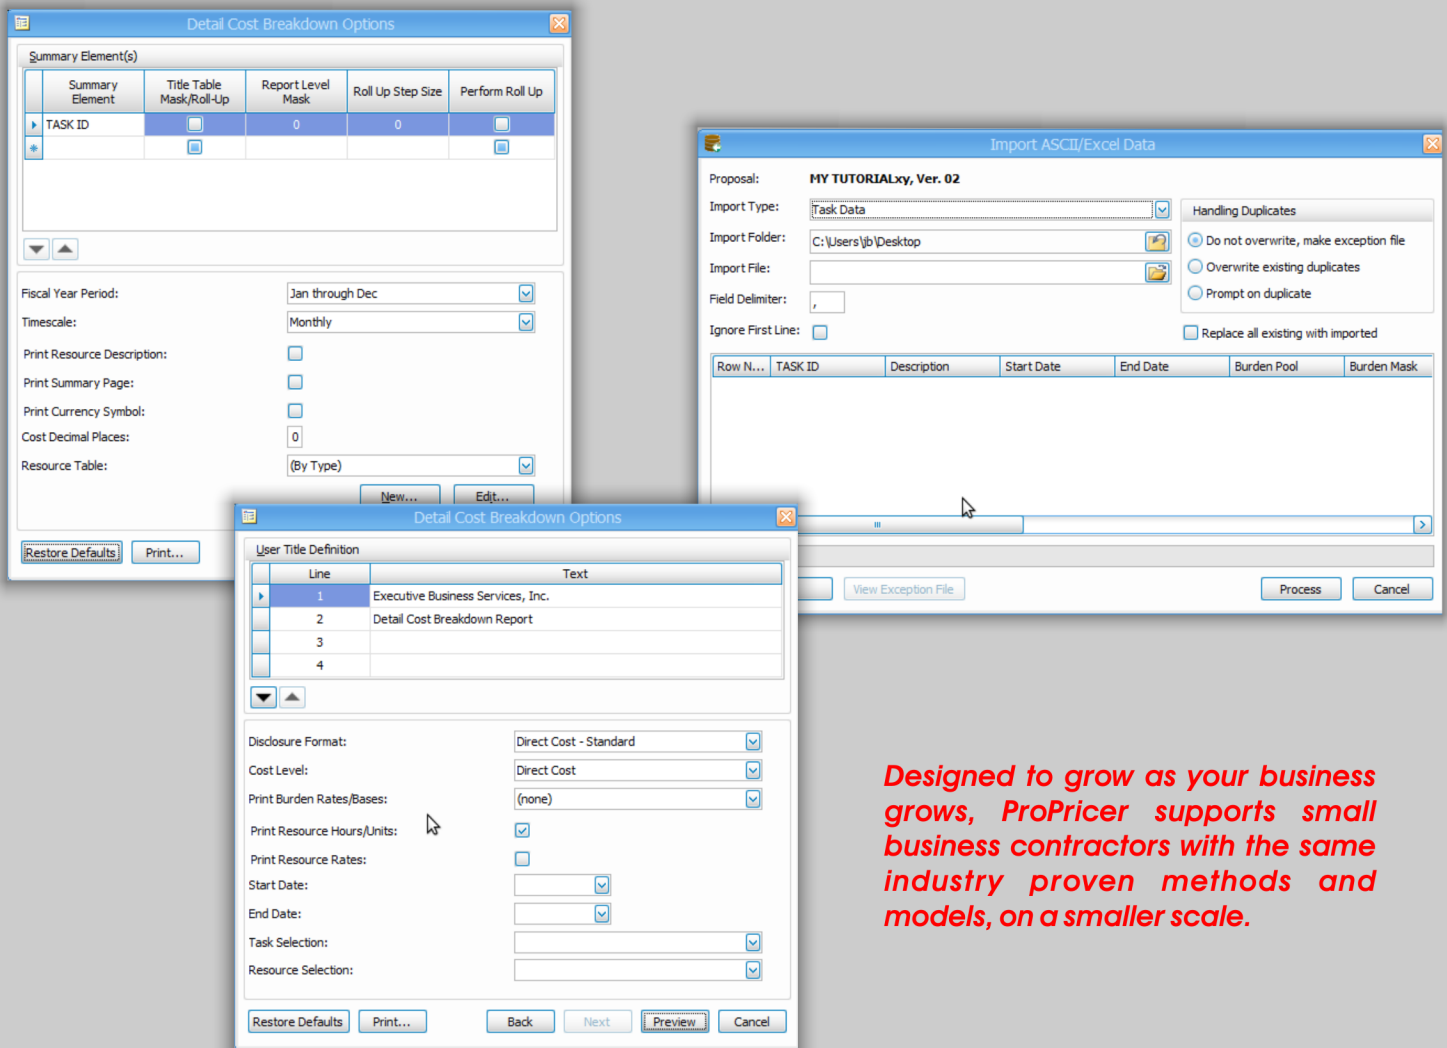

Key Benefits

- Meets FAR requirements.
- A member of the proven family of ProPricer software products, the industry's benchmark in proposal pricing.
- Organize estimates and apply rates, escalations, and "what-if" analysis in minutes.
- A fast, powerful pricing tool that uses a database design to host both direct and indirect costs.
- Subcontractor electronic export to submit cost data to Primes.
- Easy one touch importing for simple cost data gathering.
- Standard reports to make output easy for any user, including cost detail and time-phased reports.
- User friendly data input screens.
- 24/7 technical support, training, and cost volume consulting available.

Designed to grow as your business grows, ProPricer supports small business contractors with the same industry proven methods and models, on a smaller scale.

Today's small business contractors often must maintain business system compliance that will support transparency and traceability of estimates and pricing data. ProPricer's database structure and product algorithm provide the venue to help you stay compliant.

Subcontractor to Prime Relationship

Policy makers and today's industry trends are delivering a message of responsibility to Agencies and Primes. Small businesses will provide quality products and services through a variety of small business programs. ProPricer Small Business Edition offers a "Roll up to Prime" feature. With a simple export you can deliver your subcontractor bid in just a few clicks. With thousands of Prime contractor proposal professionals employing ProPricer today, you can ease the burden of creating, modifying and responding to subcontractor bids with your Primes using ProPricer Small Business Edition.

Feature Rich Quality For Small Business

ProPricer Small Business Edition comes equipped with many of the features that have made ProPricer the leading commercial off-the-shelf proposal estimating and pricing system for federal contracting. As a database application, users can enter multiple sets of rates and resources that are ready and available to build up the tasks that compile your winning proposal.

Whether you compete for fewer "complex" proposals or an increased volume of smaller bids, ProPricer Small Business Edition is flexible and durable, strengthening your cost proposal output.
