We Bring Professional Recruiting to the Front of the Line

**Temporary Staffing and
Direct Hire Agency**

www.FrontlineSourceGroup.com

No other agency stands behind their placement services like Frontline Source Group

Whether you're a small company or a large corporation, Frontline Source Group can provide you with the top talent you require. Our years of experience and broad bandwidth in the staffing industry allow us to offer a wide array of service options to meet your needs for direct hire, contract/temporary, and temp-to-hire placements.

At Frontline Source Group, we understand that you have plenty of agencies to choose from and it's going to be our People, Process and Service® that will set us apart. Industry standard for most agencies making a direct hire placement is to guarantee it for 90 days. Not with Frontline. We recognize that identifying the right candidate match is all about finding a long term solution for your business and corporate culture. Frontline Source Group goes way beyond that standard 90 day agreement with our 5 Year Warranty program. Because we know you will hire top talent from our firm, we also recognize that our candidate will shine and soon be promoted. With Frontline we love this scenario because we are here to help you find that replacement with our warranty.

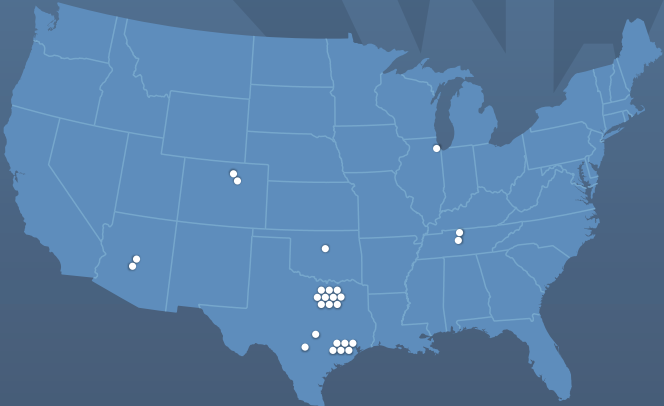

Frontline is committed to providing the highest quality service to both our clients and candidates through a relationship-based, respectful approach. Contact us today to learn more about our 5 Year Warranty Program and all of our staffing services. When you have a staffing need and want to save time, money and effort, you will have the right partner to achieve your task. Please visit us online at www.FrontlineSourceGroup.com to get started.

5 Year Warranty

Frontline Source Group is one of the fastest-growing staffing agencies in the nation. We work with clients and candidates in all areas of the United States. We specialize in short-term, long-term or project-based staffing in a variety of industries, including:

- Information Technology
