Examining a vast array of esoteric subjects from the earliest times until this current era, *Modern Esoteric* takes a radically different perspective on the social, scientific and economic issues of our day

SAN FRANCISCO: Reality is not what it appears. A number of disciplines and practices ranging from ancient Vedic literature to quantum physics, from meditation and prayer to intentional manifestation, to name a few, are coming together around concepts that are beginning to link actual physical reality to our thoughts and consciousness in a feedback loop where our consciousness is not merely influenced by reality as we perceive it, but reality is, in turn, influenced by our thoughts.

Organized into three sections (Lifeology, Control and Thrive), *Modern Esoteric: Beyond Our Senses (2nd ed)* by *World Explorer* magazine editor Brad Olsen (CCC Publishing, September 2017) examines the flaws in modern history and looks at how ancient esoteric teachings, coupled with accelerated scientific advancements, can be used to reverse the dead-end course the world is heading towards.. The Lifeology section explores the long and storied “alternative narrative” of life on this planet. In the Control

section, author Brad Olsen examines how Big Brother is here in the form of the New World Order, and how they keep the knowledge of humankind’s true nature from the mass population. Finally, the Thrive section looks at all the ways humans are evolving to achieve their full potential. Indeed, the revolution is consciousness.

Through exploration and the integration of cutting-edge science with ancient wisdom, Olsen believes the dawn of our new society is faced on the one hand with global tyranny, or we can overcome the oppression and advance towards universal abundance and enlightenment. Without government and media manipulation this can be possible, and the Golden Age will be attained with the rapid advancement of human consciousness.

*“We’re at the frontier of an evolution in consciousness, with limitless potential to create a better future individually and collectively. It helps, though, if we’re informed about what’s gone before and what we’re up against now. In *Modern Esoteric*, publisher, editor and change agent Brad Olsen analyses the flaws in history as we’ve been taught it. He restates the wisdom of the ancient esoteric traditions and champions the cause of free-energy technologies.” –Nexus*
