

**FOR IMMEDIATE RELEASE :**

## **Maratek Launches Revolutionary Cannabis / Hemp Oil Production Equipment at Upcoming MJ Biz Conference in Las Vegas**

*Maratek will be exhibiting at the MJ Biz Conference on Dec 11-13, 2019 at booth C#2438, where they will showcase their brand-new series of products.*

**[Bolton, Ontario, Canada - December 6, 2019]** Maratek ( [www.maratek.com](http://www.maratek.com) ), the award-winning, industry leader in the manufacturing of cannabis & hemp oil processing equipment has some exciting news! They have announced they will be exhibiting their new product line up at the upcoming MJ Biz Conference in Las Vegas, Nevada.

Maratek will showcase a series of revolutionary cannabis and hemp oil processing equipment at Booth C#2438 in the Las Vegas Convention Center, from December 11-13, 2019.

Maratek was founded over 50 years ago and is headquartered in Ontario, Canada. At the conference, Maratek will be exhibiting their Oil and Ethanol Recovery System – (OERS C-Series), with a fully automated 3-in-1 process.

The OERS C-Series unit features 99+% ethanol recovery, optional decarboxylation, clean in place options, complete data logging, Allen Bradley PLCs with secure remote access and control. With the highest safety and quality standards in mind, all equipment is designated as Class 1 Division 1 certified, and UL listed, using only North American stainless steel, parts, and labor.

Visitors to the Maratek booth at MJBizCon will be offered a demo of the equipment by a Maratek representative, who will be able to walk you through how businesses can automate, optimize, and scale their cannabis / hemp oil production process.

“The team at Maratek is incredibly excited to be once again showcasing our uniquely engineered range of cannabis and hemp oil processing equipment at this year’s MJ Biz

Conference,” commented Colin Darcel, President of Maratek. “At the show, we’ll be launching a series of new technologies that will further automate the entire hemp and cannabis extraction process. We invite attendees to stop by our booth, C2438, to find out more.”

The new Maratek cannabis / hemp oil production equipment includes the F Series for automated fractional distillation/reproofing and dewatering, as well as the Turnkey Automatic Winterization System (TAWS). Say goodbye to the labor intensive, lengthy winterizing process of the past.

Maratek will also be promoting their Turnkey Extraction Facilities which are designed to utilize either warm or cryogenic ethanol extraction in both single and multiple wash configurations. Additionally, they can provide turnkey solutions for CO2 extraction, each from biomass to oil.

The [MJ Biz Conference](#) is hosted by the editors of MJBiz Daily, and is the largest gathering of cannabis business professionals in the world. The conference welcomes over 35,000 attendees from more than 75 different countries.

The MJBizCon event sees the entire cannabis industry come together to learn, network, explore, reward and get business done. With an outstanding program of associated events and add-ons, every attendee at the conference will have the opportunity to make new connections and drive their business into the future.

### **About Maratek Environmental**

For over 50 years Maratek has been engineering and manufacturing environmentally-friendly products that recycle solvents for the printing, coatings, automotive, aerospace, food, and paint industries. This background is what transformed us into the leaders in the market for Cannabis & Hemp Oil equipment. Maratek can also provide world-class engineering services to integrate systems and provide closed-loop cannabis/hemp oil production processes.

Our manufacturing facility and team of in-house engineers puts us at the forefront of design, implementation, integration, and service. With the rise of solvents in the Cannabis & Hemp industry, we have seen an increased demand for our technologies and engineering experience.
