FISCHER IDENTITY

Fischer Identity Announces Integration Partnership with 1KOSMOS

Fischer Identity can now indisputably prove the identity of students, faculty, parents, and employees for account claiming and compliance with BlockID Verify.

Naples, Florida — March 22, 2021 — Fischer Identity, the inventors of Identity-as-a-Service and providers of full-suite IGA lifecycle management solutions for the enterprise, today announced its partnership with 1Kosmos, the only cybersecurity solution to combine digital identity proofing and passwordless authentication, today announced its partnership with Fischer Identity.

Fischer Identity now integrates with 1Kosmos' BlockID Verify, a solution powered by advanced biometrics and blockchain technology that indisputably proofs the identity of employees and customers to streamline and eliminate the risk of identity compromises during the onboarding process.

Andrew Sroka, President and CEO of Fischer Identity, said, "We are pleased to partner with #1Kosmos as Fischer continues to address the dynamic direction of the work and education environments.   #1Kosmos identity proofing functionality provides organizations with an added level of security which is imperative as users become more mobile".

Fischer Identity leverages BlockID Verify to complement its identity governance and administration. With BlockID, Fischer Identity is capable of reaching the highest level of identity assurance (IAL3) per the NIST 800-63-3 guidelines, is W3C and GDPR compliant and fully respects the Know Your Client (KYC) guidelines.

Michael Granat, 1Kosmos' Director of Business Development, added, "I'm very excited to partner with Fischer Identity and their industry leading IGA platform. The need for higher education to utilize contactless and remote proofing and verification of their faculty, staff, and student body is apparent in our ever-evolving world. The ability to utilize 1Kosmos BlockID's contactless and remote proofing and verification will help Fischer Identity's customers onboard faster and more securely."
